INDEX OF SUBJECTS

Africa – plants, genes and people: improving the relevance of plant breeding (Haugerud and Collinson), 341

African Farm Management, by Martin Upton, reviewed by D. Marshall, 135

Age at harvest and time of planting and their effect on the yield of the stem-tuber and shoots in ginger (*Zingiber officinale*) in the rainforest zone of south-eastern Nigeria (Okwuowulu, Ene, Odurukwe and Ojinaka), 209

Agricultural Marketing Enterprises for the Developing World, by J. C. Abott, reviewed by I. M. Crawford, 134

Agricultural Policy Analysis Tools for Economic Development, ed. by Luther Tweeten, reviewed by W. Wise, 448

Agricultural Processing for Development: Enterprise Management in Agricultural and Fish Processing, by J. C. Abott, reviewed by A. K. Thompson, 133

Agroforestry in Agricultural Education, by J. Boehnert, reviewed by S. Newman, 244

Agroforestry in Dryland Agriculture, by D. Rochelau, F. Weber and A. Field-Juma, reviewed by G. A. Watson, 447

Agronomic evaluation of jackbean (*Canavalia ensiformis*) in Yucatan, Mexico. I. Plant density (Kessler), 11; II. Defoliation and time of sowing (Kessler), 23; III. Germplasm (Kessler), 31

Alley farming with Leucaena: effect of short grazed fallows on soil fertility and crop yields (Atta-Krah), 1

Arachis hypogaea, see Groundnut

Barley and forage legume nutritive value and yields when harvested as immature herbage, hay and straw in north-west Syria (Thomson, Rihawi and Nersoyan), 49

Barley and wheat genotypes and their differential response to substrate-induced salinity under north Indian conditions (Prabhakaran Nair and Khulbe), 221

Beans and their response to fertilizer and seed treatment in Central Province, Zambia (Bezuneh and Olsen), 381

Biotechnology in Agriculture and Forestry 5. Trees II, ed. by Y. P. S. Bajaj, reviewed by M. G. R. Cannell, 246

Brassica campestris, see Rape

Brassica carinata and its prospects as an oilseed crop in India (Malik), 125

Burkina Faso – farmer-researcher collaboration in developing cropping practices that involve the complementary use of mechanical tied ridge and fertilizer technology for sorghum (Nagy, Ohm and Sawadogo), 161

Camellia sinensis, see Tea

Canavalia ensiformis, see Jackbean

Carbon Dioxide and Global Change: Earth in Transition, by S. B. Idso, reviewed by J. R. Porter, 448

Cassava (*Manihot esculenta*) photosynthesis (El-Sharkawy and Cock), 325

Cassava and investigations of its source-sink relations using reciprocal grafting (Ramanujam and Ghosh), 189

Cassava tuber yield and soil properties as affected by five years of no-tillage and mulch on an acid Ultisol in south-eastern Nigeria (Hulugalle, Lal and Gichuru), 235

Castor bean, sorghum and pearl millet yields as affected by cumulative erosion and rainfall under dry farming conditions in Andhra Pradesh, India (Vittal, Vijayalakshmi and Rao), 429

Catalogue of Germ Plasm Collections 1989, Institute of Plant Science and John Innes Institute, reviewed by F. G. H. Lupton, 137

Chemistry of Tropical Root Crops: Significance for Nutrition and Agriculture in the Pacific, by J. Howard and Warren D. Holloway, reviewed by A. K. Thompson, 131

Clonal and seasonal differences in shoot extension rates and numbers in tea (*Camellia sinensis*) (Stephens and Carr), 83

Colour Atlas of Post-Harvest Diseases and Disorders of Fruit and Vegetables (A). Volume 1: General Introduction and Fruits, by Anna L. Snowdon, reviewed by A. K. Thompson, 365

Cowpea/millet intercropping and the effects of genotype in the semi-arid tropics of Niger (Reddy, van der Ploeg and Maga), 387

Cowpeas with differing morphology intercropped with pearl millet in a short season environment in the Sahel (Ntare), 41

Crop Science and Production in Warm Climates, by J. Y. Yacock, G. Lombin and J. J. Owunubi, reviewed by A. K. Thompson, 364

Design for a large, retractable, low cost and re-locatable rain out shelter (Hatfield, Wright and Tapsall), 57

Design of Experiments (The): Statistical Principles for Practical Application, by R. Mead, reviewed by K. Ryder, 242

Development stages in lentil (Erskine, Muehlbauer and Short), 297

Dictionary of Plant Pathology (A), by Paul Holliday, reviewed by J. M. Hirst, 448

Diseases of Sugarcane: Major Diseases, ed. by C. Ricaud, B. T. Egan, A. G. Gillaspie and C. G. Hughes, reviewed by N. W. Simmonds, 131

Droughts at the end of the season and the intercropping of short and long duration groundnut (*Arachis hypogaea*) genotypes to increase productivity in such environments (Nageswara Rao, Wadia and Williams), 63

Dry farming conditions in Andhra Pradesh, India and the effect of cumulative erosion and rainfall on sorghum, pearl millet and castor bean yields (Vittal, Vijayalakshmi and Rao), 429

Ecology of Intercropping (The), by J. H. Vandermeer, reviewed by R. Wiley, 366

Economic and agronomic evaluation of soyabean planting methods in the Central Province of Zambia (Chanda, Bezuneh, Gibson, Olsen and Hudgens), 441

Economics of Afforestation (The): A Case Study in Africa, ed. by Dennis Anderson, reviewed by S. Newman, 243

Economics of Tropical Farm Management (The), by J. P. Makeham and L. R. Malcom, reviewed by D. Marshall, 135

Elaeis guineensis, see Oil palm

Erosion, cumulative, and rainfall and their effect on sorghum, pearl millet and castor bean yields under dry farming conditions in Andhra Pradesh, India (Vittal, Vijayalakshmi and Rao), 429

Evaluation by agronomic and economic means of soyabean planting methods in the Central Province of Zambia (Chanda, Bezuneh, Gibson, Olsen and Hudgens), 441

Evapotranspiration, water use efficiency, moisture extraction pattern and plant water relations of rape (*Brassica campestris*) genotypes in relation to root development under varying irrigation schedules (Raja and Bishnoi), 227

Fallows, grazed, and their effect on soil fertility and crop yields in Leucaena-based alley farming (Atta-Krah), 1

Farmer–researcher collaboration in developing cropping practices that involve the complementary use of mechanical tied ridge and fertilizer technology for sorghum in Burkina Faso (Nagy, Ohm and Sawadogo), 161

Farming systems development and tree crops in the humid tropics (Watson), 143

Farming systems research training: review and prospects (Tripp and Woolley), 247

Fertility of the soil and crop yields as affected by short grazed fallows in Leucaena-based alley farming (Atta-Krah), 1

Fertilizer and mechanical tied ridge technology for sorghum in Burkina Faso and farmer–researcher collaboration in developing cropping practices that involve their complementary use (Nagy, Ohm and Sawadogo), 161

Fertilizer and seed treatment effects on beans in Central Province, Zambia (Bezuneh and Olsen), 381

Flowering time of mung bean (*Vigna radiata*) genotypes and their hybrids in response to photoperiod and temperature (Imrie and Lawn), 307

Food Production Systems, by various authors, reviewed by N. W. Simmonds, 134

Forage and grain yield and stover quality of sorghum and millet in low rainfall environments (Youngquist, Carter and Clegg), 279

Forage crops and the effect of gypsum compared with that of grasses on their yield on a highly sodic soil (Kumar), 185

Forage legume and barley nutritive value and yields when harvested as immature herbage, hay and straw in north-west Syria (Thomson, Rihawi and Nersoyan), 49

Forests, Weather and Climate: Proceedings of a Royal Society Discussion Meeting held on 2nd and 3rd June 1988, ed. by P. G. Jarvis, J. L. Monteith, W. J. Shuttleworth and M. H. Unsworth, reviewed by E. M. Morris, 449

Genes, plants and people: improving the relevance of plant breeding in Africa (Haugerud and Collinson), 341

Ginger (*Zingiber officinale*) and the effect of time of planting and age at harvest on the yield of the stem-tuber and shoots in the rainforest zone of south-eastern Nigeria (Okwuowulu, Ene, Odurukwe and Ojinaka), 209

Grafting, reciprocal, and its use in investigations of source–sink relations in cassava (Ramanujam and Ghosh), 189

Grasses compared with the effect of gypsum on the yield of forage crops on a highly sodic soil (Kumar), 185

Grazed fallows and their effect on soil fertility and crop yields in Leucaena-based alley farming (Atta-Krah), 1

Groundnut (*Arachis hypogaea* L.) and the effect of photoperiod on the reproductive development of a photoperiod sensitive cultivar, NC Ac 17090 (Flohr, Williams and Lenz), 397

Groundnut (*Arachis hypogaea*) and the intercropping of short and long duration genotypes to increase productivity in environments prone to end-of-season droughts (Nageswara Rao, Wadia and Williams), 63

Groundnut/sorghum intercrop and the light use, water uptake and performance of the individual components (Azam-Ali, Matthews, Williams and Peacock), 413

Gypsum compared with the effect of grasses on the yield of forage crops on a highly sodic soil (Kumar), 185

Hibiscus sabdariffa, see Roselle

Humid tropics, tree crops and farming systems development (Watson), 143

IBSNAT project, the, and agricultural experimentation in developing countries (Harrison, Thornton and Dent), 369

Improving Vegetatively Propagated Crops, by A. J. Abbott and R. K. Atkin, reviewed by A. K. Thompson, 364

India – differential response of wheat and barley genotypes to substrate-induced salinity under northern conditions (Prabhakaran Nair and Khulbe), 221

India – prospects for *Brassica carinata* as an oilseed crop (Malik), 125

India – the effect of cumulative erosion and rainfall on sorghum, pearl millet and castor bean yields under dry farming conditions in Andhra Pradesh (Vittal, Vijayalakshmi and Rao), 429

Inflorescences in oil palm (*Elaeis guineensis*) and the determination of bunch yield components in their development (Breure and Menendez), 99

Intercrop of sorghum and groundnut and the light use, water uptake and performance of the individual components (Azam-Ali, Matthews, Williams and Peacock), 413

Intercropping experiments, statistical analysis, and agricultural practice (Finney), 73

Intercropping millet and cowpea in the semi-arid tropics of Niger and the effects of genotype (Reddy, van der Ploeg and Maga), 387

Intercropping morphologically different cowpeas with pearl millet in a short season environment in the Sahel (Ntare), 41

Intercropping oilseeds and pulses in roselle (*Hibiscus sabdariffa*) and its effects (Roy, Sasmal and Bhattacharjee), 407

Intercropping short and long duration groundnut (*Arachis hypogaea*) genotypes to increase productivity in environments prone to end-of-season droughts (Nageswara Rao, Wadia and Williams), 63

International Bank for Reconstruction and Development/World Bank (The) – miscellaneous publications, reviewed by M. K. V. Carr, 137

Introduction to the Physiology of Crop Yield (An), by R. K. M. Hay and A. J. Walker, reviewed by M. K. V. Carr, 366

Irrigation and the evapotranspiration, water use efficiency, moisture extraction pattern and plant water relations of rape (*Brassica campestris*) genotypes in relation to root development under varying schedules (Raja and Bishnoi), 227

ISNAR Agricultural Research Indicator Series: A Global Data Base on National Agricultural Research Systems, by P. G. Pardey and J. Rosenboom, reviewed by D. J. Greenland, 449

Jackbean (*Canavalia ensiformis*) agronomic evaluation in Yucatan, Mexico. I. Plant density (Kessler), 11; II. Defoliation and time of sowing (Kessler), 23; III. Germplasm (Kessler), 31

Journal of Agricultural Ethics: Volume 1, No. 1, ed. by F. Hurnik and H. Lehman, reviewed by M. Tiffen, 245

Land Degradation: Problems and Prospects, by A. H. Chisholm and R. G. Dumsday, reviewed by R. J. Rickson, 244

Legume and barley nutritive value and yields when harvested as immature herbage, hay and straw in north-west Syria (Thomson, Rihawi and Nersoyan), 49

Lentil development stages (Erskine, Muehlbauer and Short), 297

LER values, staple and effective, and their confidence intervals (Oyejola), 213

Leucaena and alley farming: effect of short grazed fallows on soil fertility and crop yields (Atta-Krah), 1

Light use, water uptake and performance of individual components of a sorghum/groundnut intercrop (Azam-Ali, Matthews, Williams and Peacock), 413

Maize (*Zea mays*) studies at Bunda, Malawi. III. Yield in rotations with pasture legumes (MacColl), 263; IV. Further investigations into the effects of planting date (MacColl), 273

Malawi – studies on maize (*Zea mays*) at Bunda. III. Yield in rotations with pasture legumes (MacColl), 263; IV. Further investigations into the effects of planting date (MacColl), 273

Manihot esculenta, see Cassava

Mechanical tied ridge and fertilizer technology for sorghum in Burkina Faso and farmer–researcher collaboration in developing cropping practices that involve their complementary use (Nagy, Ohm and Sawadogo), 161

Mexico – an agronomic evaluation of jackbean (*Canavalia ensiformis*) in Yucatan, I. Plant density (Kessler), 11; II. Defoliation and time of sowing (Kessler), 23; III. Germplasm (Kessler), 31

Millet and sorghum grain and forage yield and stover quality in low rainfall environments (Youngquist, Carter and Clegg), 279

Millet/cowpea intercropping and the effects of genotype in the semi-arid tropics of Niger (Reddy, van der Ploeg and Maga), 387

Mulch and no-tillage and their effect on soil properties and tuber yield of cassava on an acid Ultisol in south-eastern Nigeria after five years (Hulugalle, Lal and Gichuru), 235

Mung bean (*Vigna radiata*) and the time to flowering of genotypes and their hybrids in response to photoperiod and temperature (Imrie and Lawn), 307

Natural Crop Protection in the Tropics, by G. Stoll, reviewed by S. B. C. Larkin, 363

Natural pest control and the challenge of agricultural production in the third world (Hussey), 171

Niger – genotype effects in millet/cowpea intercropping in the semi-arid tropics (Reddy, van der Ploeg and Maga), 387

Nigeria – effect of five years of no-tillage and mulch on soil properties and tuber yield of cassava on an acid Ultisol in the south-east (Hulugalle, Lal and Gichuru), 235

Nigeria – effect of time of planting and age at harvest on the yield of the stem-tuber and shoots in ginger (*Zingiber officinale*) in the rainforest zone of the south-east (Okwuowulu, Ene, Odurukwe and Ojinaka), 209

Nutrititive value and yields of some forage legumes and barley harvested as immature herbage, hay and straw in north-west Syria (Thomson, Rihawi and Nersoyan), 49

Oil palm (*Elaeis guineensis*) and the effect of planting density on the components of yield (Breure, Menendez and Powell), 117

Oil palm (*Elaeis guineensis*) inflorescences and the determination of bunch yield components in their development (Breure and Menendez), 99

Oil Palm (The): 3rd Edition, by C. W. S. Hartley, reviewed by R. F. A Murfitt, 365

Oilseed crops; prospects for *Brassica carinata* in India (Malik), 125

Oilseeds and pulses intercropped in roselle (*Hibiscus sabdariffa*) and their effects (Roy, Sasmal and Bhattacharjee), 407

Our Daily Bread: The Peasant Question and Family Farming in the Colombian Andes, by N. Reinhardt, reviewed by S. Maxwell, 136

Parasitic Weeds in Agriculture: Volume I Striga, ed. by L. J. Musselman, reviewed by P. J. Terry, 243

Pearl millet and the time and method of weed control (Singh and Yadav), 319

Pearl millet intercropped with morphologically different cowpeas in a short season environment in the Sahel (Ntare), 41

Pearl millet, sorghum and castor bean yields as affected by cumulative erosion and rainfall under dry farming conditions in Andhra Pradesh, India (Vittal, Vijayalakshmi and Rao), 429

People, plants and genes: improving the relevance of plant breeding in Africa (Haugerud and Collinson), 341

Pest control by natural means and the challenge of agricultural production in the third world (Hussey), 171

Photoperiod and its effect on the reproductive development of a photoperiod sensitive groundnut (*Arachis hypogaea* L.) cv. NC Ac 17090 (Flohr, Williams and Lenz), 397

Photoperiod and temperature effects on the time to flowering of mung bean (*Vigna radiata*) genotypes and their hybrids (Imrie and Lawn), 307

Photosynthesis of cassava (*Manihot esculenta*) (El-Sharkawy and Cock), 325

Planning Stage of On-Farm Research (The): Identifying Factors for Experimentation, by R. Tripp and J. Woolley, reviewed by J. Farrington, 243

Plant Biotechnology in Agriculture, by K. Lindsey and M. G. K. Jones, reviewed by R. H. V. Corley, 366

Plant breeding and improving its relevance for people in Africa (Haugerud and Collinson), 341

Plant Pathology, by George N. Agrios, reviewed by G. Pegg, 132

Plant Physiological Ecology: Field Methods and Instrumentation, ed. by R. W. Pearcy, J. Ehleringer, H. A. Mooney and P. W. Rundel, reviewed by W. Stephens, 363

Planting density and its effect on the yield components of oil palm (*Elaeis guineensis*) (Breure, Menendez and Powell), 117

Planting methods for soyabean in the Central Province of Zambia and their agronomic and economic evaluation (Chanda, Bezuneh, Gibson, Olsen and Hudgens), 441

Planting time and age at harvest and their effect on yield of the stem-tuber and shoots in ginger (*Zingiber officinale*) in the rainforest zone of south-eastern Nigeria (Okwuowulu, Ene, Odurukwe and Ojinaka), 209

Potato (The): Third Edition, by W. G. Burton, reviewed by A. K. Thompson, 131

Principles of Environmental Physics (second edition), by J. L. Monteith and M. H. Unsworth, reviewed by B. J. Legg, 447

Pulses and oilseeds intercropped in roselle (*Hibiscus sabdariffa*) and their effects (Roy, Sasmal and Bhattacharjee), 407

Quality of stover and yield of grain and forage of sorghum and millet in low rainfall environments (Youngquist, Carter and Clegg), 279

Rain out shelter design – large, retractable, low cost and re-locatable (Hatfield, Wright and Tapsall), 57

Rainfall and cumulative erosion and their effect on sorghum, pearl millet and castor bean yields under dry farming conditions in Andhra Pradesh, India (Vittal, Vijayalakshmi and Rao), 429

Rainfall, low, and yield of grain and forage and stover quality of sorghum and millet in this environment (Youngquist, Carter and Clegg), 279

Rainfed lowland rice and the response of its roots to water stress (Thangaraj, O'Toole and De Datta), 287

Rainforest zone of south-eastern Nigeria and the effect of time of planting and age at harvest on the yield of the stem-tuber and shoots in ginger (*Zingiber officinale*) (Okwuowulu, Ene, Odurukwe and Ojinaka), 209

Rape (*Brassica campestris*) genotypes and their evapotranspiration, water use efficiency, moisture extraction pattern and plant water relations in relation to root development under varying irrigation schedules (Raja and Bishnoi), 227

Reproductive development of a photoperiod sensitive groundnut (*Arachis hypogaea* L.) cv. NC Ac 17090 and its response to photoperiod (Flohr, Williams and Lenz), 397

Rice, rainfed lowland, and the response of its roots to water stress (Thangaraj, O'Toole and De Datta), 287

Root development in rape (*Brassica campestris*) genotypes under varying irrigation schedules and its relation to evapotranspiration, water use efficiency, moisture extraction pattern and plant water relations (Raja and Bishnoi), 227

Root response to water stress in rainfed lowland rice (Thangaraj, O'Toole and De Datta), 287

Roselle (*Hibiscus sabdariffa*) and the effects of intercropping with oilseeds and pulses (Roy, Sasmal and Bhattacharjee), 407

Sahel, the, – intercropping morphologically different cowpeas with pearl millet in a short season environment (Ntare), 41
Salinity, substrate-induced, and the differential response of wheat and barley genotypes under north Indian conditions (Prabhakaran Nair and Khulbe), 221
Science and Food: The CGIAR and its Partners, by J. R. Anderson, R. W. Herdt and G. M. Scobie, reviewed by J. K. Coulter, 241
Science, Ethics and Food, by B. W. J. Le May, reviewed by R. C. Carter, 241
Seasonal and clonal differences in shoot extension rates and numbers in tea (*Camellia sinensis*) (Stephens and Carr), 83
Seed Planning and Policy for Agricultural Production, by A. Fenwick Kelly, reviewed by E. H. Roberts, 363
Seed Science and Technology Laboratory Manual, by M. B. McDonald and L. O. Copeland, reviewed by S. B. C. Larkin, 133
Seed treatment and fertilizer effects on beans in Central Province, Zambia (Bezuneh and Olsen), 381
Shoot extension rates and numbers in tea (*Camellia sinensis*); seasonal and clonal differences (Stephens and Carr), 83
Shoot growth in tea and its pattern (Smith, Harvey and Cannell), 197
Sodic soils and the effect of gypsum compared with that of grasses on the yield of forage crops (Kumar), 185
Soil fertility and crop yields as affected by short grazed fallows in Leucaena-based alley farming (Atta-Krah), 1
Soil properties and tuber yield of cassava as affected by five years of no-tillage and mulch on an acid Ultisol in south-eastern Nigeria (Hulugalle, Lal and Gichuru), 235
Sorghum and farmer-researcher collaboration in developing cropping practices that involve the complementary use of mechanical tied ridge and fertilizer technology in Burkina Faso (Nagy, Ohm and Sawadogo), 161
Sorghum and millet grain and forage yield and stover quality in low rainfall environments (Youngquist, Carter and Clegg), 279
Sorghum, pearl millet and castor bean yields as affected by cumulative erosion and rainfall under dry farming conditions in Andhra Pradesh, India (Vittal, Vijayalakshmi and Rao), 429
Sorghum/groundnut intercrop and the light use, water uptake and performance of the individual components (Azam-Ali, Matthews, Williams and Peacock), 413
Source–sink relations in cassava investigated using reciprocal grafting (Ramanujam and Ghosh), 189
Soyabean planting methods in the Central Province of Zambia and their agronomic and economic evaluation (Chanda, Bezuneh, Gibson, Olsen and Hudgens), 441
Spanish–English Horticultural Dictionary, by D. O'D. Bourke, L. Fanjul and A. J. Rendell-Dunn, reviewed by Antony Wheatley, 136
Staple and effective LER values and their confidence intervals (Oyejola), 213
Statistical analysis and agricultural practice in intercropping experiments (Finney), 73
Syria – nutritive value and yields of some forage legumes and barley harvested as immature herbage, hay and straw in the north-west (Thomson, Rihawi and Nersoyan), 49
Systems, *see* Farming systems

Tea (*Camellia sinensis*) and seasonal and clonal differences in shoot extension rates and numbers (Stephens and Carr), 83
Tea shoot growth and its pattern (Smith, Harvey and Cannell), 197
Temperature and photoperiod effects on the time to flowering of mung bean (*Vigna radiata*) genotypes and their hybrids (Imrie and Lawn), 307
Training and Visit Extension in Practice, ed. by J. Howell, reviewed by T. J. Harding, 244
Training in farming systems research: review and prospects (Tripp and Woolley), 247
Tree crops and farming systems development in the humid tropics (Watson), 143
Tropical Soil Biology and Fertility: A Handbook of Methods, ed. by J. M. Anderson and J. S. I. Ingram, reviewed by T. M. Hess, 245

Vigna radiata, *see* Mung bean

Water Resources and Agricultural Development in the Tropics, by C. Barrow, reviewed by T. M. Hess, 242

Water stress and root response in rainfed lowland rice (Thangaraj, O'Toole and De Datta), 287
Water uptake, light use and performance of individual components of a sorghum/groundnut intercrop (Azam-Ali, Matthews, Williams and Peacock), 413
Water use efficiency, evapotranspiration, moisture extraction pattern and plant water relations of rape (*Brassica campestris*) genotypes in relation to root development under varying irrigation schedules (Raja and Bishnoi), 227
Weed Control Economics, by B. A. Auld, K. M. Menz and C. A. Tisdall, reviewed by I. D. Carruthers, 367
Weed control time and method in pearl millet (Singh and Yadav), 319
Wheat and barley genotypes and their differential response to substrate-induced salinity under north Indian conditions (Prabhakaran Nair and Khulbe), 221
Wheat and the critical zinc deficiency level and response to zinc application on Typic Ustochrepts (Bansal, Singh and Nayyar), 303
World Agriculture Towards 2000: An FAO Study, ed. by N. Alexandratos, reviewed by A. H. Bunting, 132

Yield components of oil palm (*Elaeis guineensis*) as affected by planting density (Breure, Menendez and Powell), 117
Yield of bunches in oil palm (*Elaeis guineensis*) and the determination of its components in inflorescence development (Breure and Menendez), 99
Yield of cassava tubers and soil properties as affected by five years of no-tillage and mulch on an acid Ultisol in south-eastern Nigeria (Hulugalle, Lal and Gichuru), 235
Yield of forage crops on a highly sodic soil and the effect of gypsum compared with that of grasses (Kumar), 185
Yield of grain and forage and stover quality of sorghum and millet in low rainfall environments (Youngquist, Carter and Clegg), 279
Yield of the stem-tuber and shoots in ginger (*Zingiber officinale*) in the rainforest zone of south-eastern Nigeria as affected by time of planting and age at harvest (Okwuowulu, Ene, Odurukwe and Ojinaka), 209
Yields and nutritive value of some forage legumes and barley harvested as immature herbage, hay and straw in north-west Syria (Thomson, Rihawi and Nersoyan), 49
Yields and soil fertility as affected by short grazed fallows in Leucaena-based alley farming (Atta-Krah), 1
Yields of sorghum, pearl millet and castor bean as affected by cumulative erosion and rainfall under dry farming conditions in Andhra Pradesh, India (Vittal, Vijayalakshmi and Rao), 429

Zambia – an agronomic and economic evaluation of soyabean planting methods in the Central Province (Chanda, Bezuneh, Gibson, Olsen and Hudgens), 441
Zambia – response of beans to fertilizer and seed treatment in Central Province (Bezuneh and Olsen), 381
Zea mays, see Maize
Zinc deficiency and the critical level and response to zinc application of wheat on Typic Ustochrepts (Bansal, Singh and Nayyar), 303
Zingiber officinale, see Ginger
